

Training for AQS Web

2003 AQS Conference

Nick Mangus

What's the Scoop?

- ◆ We provided training here
 - So no one needs any more, right?
- ◆ We realize that new users come on board at your organizations
- ◆ We make changes to the system, reports, architecture (CDX), etc.

Short Term Plan

- ◆ We can provide training at regional offices “as needed”
 - Will try to hit most regions this year for AQS Web rollout

Long Term Plan Proposal

- ◆ We can provide regular training each year
 - At conference
 - At a few regions, alternating each year
 - At RTP
- ◆ We need your help in formulating plan

Wrap Up

- ◆ Who, when, and how for this year still to be determined
- ◆ We'll (HQ and ROs) await to hear your feedback: now, forums, or in private if you prefer
